CHRISTMAS promises to bring an extra measure of good cheer this year. The Postmaster general has directed subordinate postmasters to employ with the fullest degree of liberality as many des erving persons, both male and female, as circumstances may war-rant, to handle the holiday rush of business. The pay will be about half a dollar an hour for a day not longer than ten hours. this instance the Christmas season will prove an agreeable time no for the recipients of presents, but for the needy messengers of Santa Claus as well.

THE OLD HOME TOWN

It's funny how the years change things. On my vacation I waner ed around the old home town. Down where the old swimming hole had been the oil boat not comes in; where we used to pick tanks.

Down in the valley where we was quite a daredevil to ski coast down what we called the "steep hill." Now I chuckle at the

The creek in the woods where we frequently went swimming is overgrown with brush. The spring that bubbled out of the ground when I was a youngster is still there, but there is no path to it as there used to be. The woods where the gang used to camp has been subdivided and there are beautiful homes there now.

The old home town is tied up with our fondest memories. When we are away from it we imagine it is the same old town we knew years ago. When ye visit it we are disillusioned. New buildings stand where old familiar ones stood before. Everything seems

After all, there is nothing permanent but change. That's why we think memory is such a wonderful thing.

C. C. C. Men Work On Stream Improvement

A two and a half mile stretch of stream improvement work easily accessible to the public has been completed on the west branch of the Sturgeon River just south of the village of Wolverine, it has been announced by the Department of Conservation.

The work was done by C.C.C labor under the direction of the Institute for Fisheries Research.

Because of the fact that the stream improvements have been made along a stretch of river that immediately parallels Highway US27, one of the main traveled roads leading through northern Michigan, anglers and others interested are being offered an opportunity to see first hand, what improvement means, and what devices are used to create pools, shade, spawning beds and assist in the growth of water vegetation.

The Conservation Department is now erecting signs along the river indicating the stream improvement work that it might be easily identified by passing motorists.

The improvements made in the

Sturgeon River represent one of the activities carried on by Emergency Conservation Work labor. Numerous other streams and several lakes are receiving attention

ALUMNI DEFRATS G.H.S. IN OPENER

The opening game of the season was a mad scramble in which a total score of 70 became twisted about in such a manner that the High School team came out of the small end of the horn with the final score of 50-20 overwhelmingly in favor of the Alumni.

The game began with a spectac ular play which netted the Alumni a basket in the first two sec onds. After this the game settled down somewhat, with each team feeling out their opponents. The first score by the High School was a fine shot netted by Leo Lovely. During the first quarter the Alumni played a quiet, defensive game, making few offensive moves, but guarding their own basket very effectively. Altho the High School team had difficulty breaking the Alumni defense, Smock kept the veterans rather worried with his accurate long shots. The score at the quarter was 5 all.

At the second quarter the veterans warmed to their job some what and began gradually pulling away from the school team. At the half the score was decidedly in their favor altho it was still anybody's game.

The boys in green bitterly contested every advance into their wild strawberries the Standard territory and succeeded in break-Oil Company has built three big ing through to the Alumni basket quite often but, in spite of the best they could do, the superior used to go coasting and skiing in playing, gained by the seasoned the winter the hills look small ball club from years of experience, and insignificant now. Once one counted heavily and the score kept steadily rising until, in the fourth quarter, the Alumni put on a last minute burst of speed and ran up their score till it stopped at the disastrous total of 50.

Altho this first game was such a defeat, it is no reflection on the school team, for it is a matter of history that seldom, if ever, has the High School beaten the Alumni organization, and the fact that they ran up a score of 20 against a team composed almost entirely of men who are good enough to make the Lumberjacks squad, one of the best semi-pro teams in Michigan, shows that they have no little ability. The High School, given a little more experience and a chance to develop their defense, will be as formidable a ball

club as any we have ever had. The preliminary to this first game of the season was a playoff for the intramural championship between the Braves and the Vikings. The Braves won after a hard-fought battle. The final score stood 17 to 22. These teams displayed a remarkable degree of teamwork and some real basket ball ability. These intramural teams promise to bring forth a supply of ball players who can furnish material for some real championship teams for the years to come.

Intramural Wildcats. team into camp on the Frederic The first games after the re-floor by a score of 21 to 26. The teams appeared on the scene about the Tigers and Vikings. This was 8:00 with Frederic being represented by their orange and black two overtime periods. But when

The game started off with cheers coming from both sides. Frederic made the first basket and November 23, the Junior class

IMPROVED SUPER SHELL Saves You 200 Extra Miles In Winter

-and Gives Quicker Starting

Here's real news for you motorists! Super Shell is im-proved again!

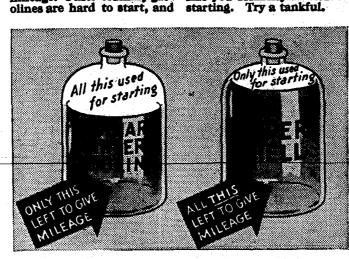

starting in cold weather, with light, gassy parts, which you

lose after your engine warms up, thereby reducing your

mileage. Other ordinary gas-

waste your fuel by excessive choking and, therefore, they, too, reduce your mileage. Some ordinary gasolines are overloaded for quick

The improved Super Shell, by Shell's new and exclusive reforming process, gives you quicker starting on the coldest day in winter, and saves, for extra mileage, the gasoline you formerly wasted in starting. Try a tankful.

YOU SAVE MONEY by using the improved Super Shell, because you leaves you more gasoline, in every gallon, for extra mileage. Super Shell stops winter waste. Use Super Shell this winter and save your money.

LAST WINTER, THIS BUS ATE UP GAS - BUT I'M GETTING REAL MILEAGE NOW I'VE CHANGED TO SUPER SHELL. MANY NEW CUSTOMERS ARE TELLING US THAT, SIR.

THOUSANDS CHANGING TO SUPER SHELL ... Like Mr. Remnus, Cleveland, shown above many thousands of motorists everywhere have changed to the improved new Super Shell. All because Super Shell is the first gasoline to combine quick starting with full mileage. No need for you to waste one mile or more per gallon in cold-weather. No need to be bothered with a hard-starting engine. Change to Super Shell—get the quickest starting you've ever known, plus longer mileage.

Grayling Mich. IRKE OII

AuSable Service Station, Frank Ahman, Proprietor Grayling, Mich.

period by the score of 12 to 14. from their supporters, spurring them on to victory.

With the score at 22-13, the fourth quarter proved the most exciting of all, as Tom Brown of the Intramurals found the basket to Grayling's score. But the big lead gained by the Fredericites in the third quarter was too much to overcome. They added 4 points and brot their total up to 26 Grayling's 21.

Frederic will play a return game here with the Intramurals on Jan. 10, furnishing the preliminary for Boyne City-Grayling game. The locals say they will beat them in the next game.

There were many Grayling high school students present at the game and dance following the game that was sponsored by the Frederic Senior class and which was enjoyed very much.

Intramural League Reorganized Due to the lack of players, the Intramural league had to reorganize from a four team league 2 a league of three teams. teams went under the name the Tigers, Wildcats, and Vikings. The Vikings have L. Doremire for Last Wednesday evening the coach while G. Hanson coaches the

colors, while Grayling High was the final whistle sounded the score present in the famous green and stood at 17 to 18 in the favor of the Tigers. On the evening of Thursday,

ing, only quitting his performance In the third quarter Frederic when interrupted by YoGo the sank several shots while Grayling clown who would have the audidedn't seem able to find the ence roaring at his humorous basket. The Frederic team get-ting a big lead brought cheers into three well balanced acts during which music was played by Gail Welsh.

Ward and YoGo ended their entertainment with their famous disappearing act, in which YoGo the clown disappeared from beand in a short time added 8 points fore the eyes of the audience and came into sight twenty-five yards from where he disappeared.

Vikings And Braves Vin

The Intranucat basket ball league played their weekly games last Monday evening. The first game being played between the Tigers and Braves was very easy victory for the Braves because some players on the Tigers' team were not present. The game ended with the Braves leading with the score of 7 to 23.

The second game being between the Wildcats and Vikings was a very close and exciting game. Both teams put up a real battle and was bound the other team wasn't going to make a basket. At the half the game stood 2 to 7 in the Vikings' favor but in the third o quarter the Wildcats were able to find the basket and set the score Mrs. Roy Small. at 8 and 9 in the Vikings' favor at the end of the third quarter The last-quarter was very close and very good basket ball. Both teams were held down to one The score ended at 11 to 10 in the Vikings' favor. PF

THE NATION'S NEED

Flour, Bread, Clothing Reach

Into More Than Five

Million Homes

The greatest task ever undertaken

by a relief agency in the history of

private charity is drawing to a close

with the final distribution of cotton

clothing to more than five million

families by the American Red Cross.

At the direction of the Congress,

beginning sighteen months ago, the

Red Cross undertook to convert the

wheat and cotton surpluses of the

Farm Board into food and clothing

for the unemployed and needy. In the

consequent operation, this relief

agency entered upon a commercial

enterprise greater than any single

In the ensuing months the Red

Cross converted 85,000,000 bushels

of wheat into flour and bread and gave it to 5,803,000 families. The

distribution was through 3,700 Red

Cross chapters and hundreds of

other charitable agencies. During

the severe northwestern drought of

1931 the Red Cross also gave wheat

in the form of food for livestock to

The clothing-dresses, underwear

overalls, jumpers, sweaters and

stockings for men, women and chil-

dren, and even blankets and com-

forters-was distributed to 5 485 410

families. More than 54,000,000 ready

STATE NEWS BULLETIN

Notices informing more than 3.000 non-profit Michigan corpora tions that their charters are in peril unless they file annual re ports, were sent out last week by the Department of State.

Prior to the 1931 revision the corporation code, educational and religious non-profit corpora tions were exempt from filing re ports but all others were requir ed to file reports every three years, paying a \$10 tax and \$2 filing fee. The 1931 law requires all non-profit corporations to file annual reports without tax but accompanied with the \$2 filing fee The new law also states that if non-profit corporation is delinquent in filing reports for one ed. Most of the corporations that have failed to file the required reports consist of cemetery associa tions, clubs, churches, lodges, civic improvement associations church societies in the smaller cities and villages.

Every possible relief is to b given motor vehicle owners in the purchase of 1934 license plates pending the time when a reduc evidenced by the fact that on Nov. 1, there were 59,685 few er automobiles operating in Mich igan than on the same date in 1932 with a resultant decrease in revenue of \$1.158,000 and a cor responding decrease in gasoline tax revenue. Of the 415,000 mo torists who used half-price wind shield sticker permits until Aug. 1. Department of State record show that on Nov. 1st 73,000 have been unable to pay the second half of the tax and secure 1933

These motorists must be given every consideration and the department has information that a great many motorists are not using their cars until 1934 plates can be secured. Many sales of new cars are being held up until 1984 plates can be purchased, although use of 1988 plates which may be purchased at the half rate during the balance of the year will be legal until March 1, 1934.

For these reasons, Secretary of State Frank D. Fitzgerald has announced that 1984 plates will be placed on sale in all branch offices Nov. 15 and police, deputy

Events the World Over

Business Men, Bankers and Others Assail President's Monetary Policy—Russia Recognized, Envoys Named-Welles to Leave Cuba Soon.

News Review of Current

By EDWARD W. PICKARD

A MERICAN business, as repre sented by the Chamber of Com merce of the United States, is now out in open opposition to President

mining the government's credit, preventing the expansion of normal credit and prolonging the demoralization of foreign trade-in other words, doing just the opposite of what Mr. Roosevelt manded of the administration "com plete avoidance of monetary experi mentation, greenbackism and flat money.

been supporting the President and Mr. Harriman has been active in promoting the aims of the administration. He attended the meeting of the board, as did P. W. Litchfield president of the Goodyear Tire and Rubber company; Redfield Proctor, president of the Vermont Marble ompany; Paul Shoup, vice presi dent of the Southern Pacific railroad; Chester I. Barnard, president of the New Jersey Bell Telephone company, and nearly all the rest of the 52 directors.

Besides attacking the President's monetary policy, the board adopted three other resolutions of similar tenor. One protested against the expenditure of large sums by the public works administration for financing projects in competition with private business enterprises which are now rendering adequate service at reasonable cost.

Another protested against the public works administration's plan to engage in the building of federal housing projects, and insisted that such financing should be through private housing corporations.

In a resolution on the NRA, the chamber urged that industrial codes should be administered through the trade associations of each industry.

A S HAD been expected, Prof. O. M. W. Sprague, special adviser to the treasury, resigned, and in doing so he told the President, once his pupil at Har-

Roosevelt dollar denot only will fail to raise prices substantially in the ab-sence of trade recovery but will ruin the credit of the government precipitate an inflation panic. "I be lieve." Sprague said

Sprague

are faced with the alternative either of giving up the present policy or of the meeting of government ex-Having finally lost all hope that

the President might be persuaded to change his course before it is too late, Professor Sprague said he against the Roosevelt policy, believing that the last chance of avert-ing a currency inflation debacle lies in arousing public opinion.

Another of the President's financial advisers, though unofficial James P. Warburg, New York bank er, joins with Sprague in protest against the present monetary poli cies. Like the professor, he will undertake to arouse public opinion against them. This he announced at a meeting of the American Academy of Political Science in Philadelphia. At the same meeting Prof. Irving Fisher, Yale economist, said the President's monetary policy was "substantially right"; and Senator Thomas of Oklahoma asserted that he was opposed to inflation, which will cause general surprise.

Members of the advisory council of the federal reserve board, composed of prominent bankers in each federal reserve district, met in Washington and adopted a resolution favoring the re-establishment of the currency on a gold basis, to gether with safeguards to be agreed upon by international action. The resolution was circulated privately among all the member banks in the federal reserve system.

ACTING Secretary of the Treas ury Morgenthau replied to criticisms by saying that "the cred it of the United States is as good as the Rock of Gibraltar"; but at the same time he let it be known that, in order to bolster up the prices of government securities which have been dropping, the Treasury department Reelf would

buy federal bonds with some of its surplus funds.

DRESIDENT ROOSEVELT'S answer to these protests against his policies, as obtained by Wash ington officials who communicated with him at Warm Springs, was to direct that the program of depreciating the dollar for the purpose of raising commodity prices be con-

The action of the chamber was coincident with the delivery of an address by Mr. Roosevelt at Savannah, Ga., in which he denounced the critics of his recovery program as "torles" and "doubting Thomases" and warmly defended the "experiments" he is making. He promised that "the principles and objectives of American self-government will remain the same."

Washington correspondents said that an ambitious second-stage reconstruction program was being formulated there for the President in his absence. Important features of this plan are sound money on a devalued gold standard; a balanced budget to come from proceeds of a devaluation, liquor monopoly and other "painless" revenues: a revived foreign trade on parity cur rency and real progress in resump tion of foreign debt collections.

R ESUMPTION of diplomatic relations with Russia and the recognition of the Soviet govern ment came, as was expected, on the eve of the Presi-

dent's departure for Warm Springs. He and Commissar Litvinov issued a joint announcement of the happy ending of their negotiations and Mr. Roosevelt immediately designated William C. Bullit as American ambassador to Moscow, which

greatly pleased the Russians. Within a day or so the Soviet government announced that its ambassador to Washington would be Alexander Antonovich Troyanovsky, formerly diplomatic representative at Tokyo and now vice chairman of the Russian state planning commission. This gentle man was born in Russia in 1882, studied in the University of Kiev. was exiled to Siberia in 1909, escaped and lived in France until 1917, and served in the Russian rev olutionary army. With recognition by our govern

ment, Russia agrees not to allow its agents to propagandize against the government of the United States; guarantees religious freedom and legal protection for American nationals in Russia, and waives all claims against the United States growing out of the American expe dition into Siberia in 1918-21. No promise whatever was made by Mr Litvinov concerning the attitude of his government toward the payment of \$768.583.000 in debts owed by Russia to the United States govern ment and to private American citi-

SECRETARY of the Interior Ickes, as public works administrator, announced that he had turned \$100, 000,009 over to the new federal corporation that is unde taking slum clearance work in cities throughout the country. The undertaking, he said, would be started in Detroit with a model housing

FOLLOWING his conference with Ambassador Weiles in Warm Springs, President Roosevelt Issued a formal statement concerning the

which was designed to let President Grau know that the United States is not ready to recog nize his government and will not do se unless he can per spade the island fac tions to cease their warring and agree among themselves The statement re

iterated the administration's policy of recognizing any government, re gardless of its partisan or factions color, which proved itself repre sentative of its people and able to secure their support. But it was made clear that the present Cubar government, assailed as it has been by one revolutionary attempt after another, did not at present mee these conditions.

Mr. Roosevelt supplemented his statement by the announcement that, though Ambassador Weller would return to his post in Havan after visiting Washington, he would soon be replaced by Jefferson Car fery and would resume his former position as assistant secretary o etate for Latin American affairs This is in full accord with Mr. Welles desires though he has been unwilling to retire from Havana under the heavy fire directed against him by the supporters of the Grau government. The latter had been organizing a great protest demonstration designed to keep the ambassador from landing at the Havana docks and serious trouble was feared. Mr. Roosevelt's an-nouncement it was hoped would ease this tense situation.

PREMIER ALBERT SARRAUTS government was upset by the French chamber of deputies by vote of 321 to 247 due to its insistence on retention of the gold standard and balancing the budget. by the determination of the unions of civil servants not to submit to any financial sacrifices in the interlief in Paris that Edouard Herriot new ministry.

READING FUN IN STORE FOR BOYS

World adventure thrills are in store for readers of THE AMERI-CAN BOY-YOUTH'S COMPAN-ION, according to word just received from the editor of youth's favorite magazine. From the Arctic to the jungles of Haiti, and from the plateau of Asia to the lion country of Africa, the editors have charted a course of excitement and fun in the 12 issues of 1934.

Several years ago. THE AM. ERICAN BOY introduced to its readers the popular, black-haired Jimmy Rhodes, Army aviator. Those who followed his adventures through Brooks and Kelly Field, and with the 94th Pursuit on cross-country hops, target practice, and formation flying, will be delighted to learn that Jimmie Rhodes has returned to the magazine. The new series takes him to Haiti where a revolution is im-
